## GYMGUARD® FLOOR COVERS

### Add years to the life of your gym floor!

Most gyms are multi-purpose. So your gym floor has to hold up to a lot more than sports - dances, concerts, graduations and other activities. It gets heavy foot traffic, stains, scuffs, impact from furniture and more. GymGuard® covers are built tough to protect your investment.

#### Features:

- Ultra-durable, 3 ply fabrics – PVC coated (on both sides) polyester mesh.
- Fire retardant to all standard fire codes – NFPA 701, CA Fire Marshal and UL 300
- Available in 15 colors and 5 weights – see chart
- Waterproof, rot and mildew resistant, anti-fungal and anti-bacterial
- 10' wide sections – seams are strong and lay flat and smooth
- Custom-made to your gym floor dimensions, or
- Available in 10' x 100' sections for quick shipment

#### Cover sizing - the 10-foot solution

GymGuard covers are constructed in 10' wide sections for easy handling. When figuring the size of the cover you need, we suggest adding 6"-12" for overlapping each section. (For example, for a 75' x 110' floor, order 8 sections measuring 10' x 110' each.)

#### How to choose the right cover weight?

To recommend the most cost effective GymGuard cover for your application, we need to know:

- Expected frequency of cover use per week/month/year
- Type of functions will you have on the covered floor
- Dimensions of gym floor
- Color preference

#### GymGuard Cover Colors (actual colors may vary)

All GymGuard Floor Covers have full warranty against fabric and manufacturer's defects.
